## RESPONSE FORM

# DRAFT ENVIRONMENTAL IMPACT STATEMENT

## FOR THE PROPOSED
## WHITE PASS SKI AREA EXPANSION

### WENATCHEE AND GIFFORD PINCHOT NATIONAL FORESTS

### THE RESPONSE FORM

This postage-paid response form has been designed for your convenience in commenting on the information contained in the Summary and Draft Environmental Impact Statement (DEIS) for the proposed White Pass Ski Area expansion. Your comments are important in developing a Final Environmental Impact Statement (FEIS) that is most responsive to public needs, desires, and interests.

Just write down your thoughts, fold the response form in half, staple or tape closed, and drop it in the mail. If you need more space for your comments, feel free to use addition sheets of paper. Please be sure to include your address on the mailer.

### YOUR RESPONSE

There is space on the following pages for comments on each of the 10 alternatives displayed in the DEIS. Please feel free to comment on any or all of the alternatives.

We would like to know what you like or don't like about an alternative, it's strengths and weaknesses, and any changes you would like to see. It is also important to know why you feel the way you do. Be as site specific as possible whenever appropriate to your comments. Remember, the more specific your comments are, the more we can make use of them.

**Please return this response form with your comments by August 31, 1989.**

## NEW ALTERNATIVES

If you feel that none of the alternatives displayed in the DEIS meet your idea of how you would like to see the White Pass Area managed, please describe your proposed alternative in the space below.

**NEW ALTERNATIVE**

☐ **Check if this is your preferred Alternative**

## ADDITIONAL COMMENTS

In addition to your comments on the alternatives provided on the previous pages, we would also be interested in your thoughts on the adequacy of the the DEIS, the level and accuracy of the data provided, public involvement, and the validity of conclusions drawn. Thank you for taking the time to respond.

## THE NEXT STEP

At the close of the public review period on August 31, the next step will be to conduct a detailed analysis of public comment. The Forest Supervisor will then review and evaluate the analysis of those responses. A final course of action will be determined after taking into account the public comment as well as factors such as legal constraints, resource capability and protection, and economic stability.

## ADDITIONAL INFORMATION
